Training Course on the Management of Youth Organisations for Roma Youth Leaders

16 – 24 November 2013 (travel days included)
Preparatory meeting 22-25 September 2013 (travel days included)
European Youth Centre Budapest

Background

The Council of Europe has been playing a central role regarding the situation of Roma people in Europe, regularly condemning widespread discrimination against Roma and their social and economic marginalisation and developing ways for Roma participation at European level.

In October 2010, a High Level Meeting on Roma was organised and the outcome, the Strasbourg Declaration on Roma (CM(2010)133 final), has become a guiding document for all the activities the Council of Europe undertakes regarding Roma people. The High Level meeting agreed to a joint effort and pan-European response to meet the needs of the estimated 12 million Roma living in Europe.

The “Strasbourg Declaration” includes guiding principles and priorities in the actions to be taken:

- Non-discrimination, citizenship, women and children’s rights.
- Social inclusion including education, housing and healthcare.
- Empowerment and better access to justice.

The youth sector of the Council of Europe has associated young Roma to its policy and work for intercultural dialogue and human rights education since 1995, when a ground-breaking training course for Roma youth leaders was held at the European Youth Centre in Strasbourg. Since then nearly every year a study session has been co-organised with Roma youth organisations. Roma youth workers and youth leaders participated in the Training course for Trainers on Diversity and Cohesion (2007), the - Diversity Youth Forum (2007) and the Enter! project on access to social rights for young people from disadvantaged neighbourhoods (2010-2011). In September 2011, as a follow-up of the Strasbourg Declaration, the youth sector has co-organised with the Team of the Special Representative of the Secretary General for Roma Issues a consultation with Roma youth organisations in Europe for the elaboration of a ‘Roma youth action plan’.

The Roma Youth Action Plan

The Roma Youth Action Plan¹ is a response of the Council of Europe to the challenges faced by Roma young people in Europe, particularly in relation to their empowerment, participation in policy decision-making processes and structures at European level and the realities of discrimination and particularly antigypsyism that they are confronted with. The action plan includes activities of the Youth Department and of other sectors of the Council of Europe as well as activities by other partners – intergovernmental and non-governmental – cooperating with the Council of Europe and interested in securing a

maximum of impact of their activities by avoiding double work and creating synergies between their activities.

Among the identified priorities of the Roma Youth Action Plan, there are human rights protection and promotion, development of intercultural dialogue processes as responses to situations of discrimination and antigypsyism and the development of a civil society in which Roma youth organisations, Roma youth leaders and young people generally take a active part in policy development and its implementation.

Under the priority on strengthening the Roma youth movement and supporting Roma youth participation, the youth sector of the Council of Europe will organise in 2013 a **Training course for Roma youth leaders on the management of youth organisations.**

The training course will build on the accumulated experience of the youth sector of running training courses on democratic leadership and management of youth organisations.

The training course aims to strengthen the capacity and sustainability of Roma youth organisations as a means of voicing the concerns and needs of Roma young people by developing the competences of Roma youth leaders in democratic leadership, youth participation and organisational management.

Specific objectives:

- To develop participants' organisational management competences (governance, shared leadership, decision making, conflict management, advocacy, motivation, empowerment, strategic planning, resource management etc.)

- To develop the participants' ability to network with other organisations and institutions in order to develop responses to the situations affecting Roma young people at policy levels;
